RE: REQUEST FOR ACCESS  
BLOCK 196 - LOT 38  
VOORHESS, NEW JERSEY

Dear Mr. and Mrs. Dawson:

The Sherwin-Williams Company (Sherwin-Williams) is working with the United States Environmental Protection Agency (EPA) to conduct environmental activities pursuant to an Administrative Order on Consent (AOC). Some of the upcoming work to be conducted by Sherwin-Williams under the AOC includes investigative activities (soil, sediment and surface water sampling) in and around Kirkwood Lake.

Sherwin-Williams is requesting permission to access your property at Block 196 - Lot 38, Voorhees Township, New Jersey, for the purpose of collecting soil samples from your back yard. Sherwin-Williams is also requesting that the EPA, which will oversee this work, be allowed access to your property during the sampling event.

The sampling activities on your property will consist of the collection of a small volume of soil from a few locations. Sherwin-Williams anticipates that work will be initiated in approximately 1 month. Sherwin-Williams will advise you in advance of the particular days that access may be needed. Please note that results of any sample analyses will be provided to you by the EPA.

Please indicate your agreement to provide access by signing at the end of this letter and returning the signed page to me in the enclosed self-stamped envelope.

Please feel free to call me at (216) 566-1794 if you have any questions, or Ms. Bonnie Green of the EPA at (732) 321-6647.

Sincerely,

*Mary Lou Capichioni*

Mary Lou Capichioni, Director  
Environmental Remediation Services
